WHAT IS THIS PRODUCT?

Type: Undertakings for Collective Investment in Transferable Securities (UCITS) Sub-Fund of the Variable Capital Investment Company - Société d'Investissement à Capital Variable (SICAV) SEXTANT

Maturity: The lifetime of this product is 99 years. AMIRAL GESTION has the right to dissolve the sub-fund in accordance with the Fund's Articles of Association. The sub-fund may also be dissolved in the event of a merger, a total redemption of units or if the sub-fund's net assets fall below the regulatory minimum.

Classification: International bonds and other debt securities

Objectives: SEXTANT CREDIT OPPORTUNITIES is a sub-fund aiming to deliver a net-of-fees return exceeding the benchmark "€STR (OIS-Ester) compounded +190 bps", through a selection of international bonds, without seeking to replicate the composition of this benchmark.

To meet its management objective, SEXTANT CREDIT OPPORTUNITIES invests mainly in international bonds. The scope of investments includes public and private issuers, issuers that are not rated by the rating agencies, issuers that are not considered 'High Yield' or bonds that include complexities (convertibles, subordinated, perpetuals...). The content of the portfolio is at the sole discretion of the subfund manager and depends on the yield, credit risk, and sensitivity (interest-rate risk and spreads) of the paper selected. The subfund can invest as much as 100% of net assets in high-yield bonds (i.e. rated below BBB- by Standard & Poor's), or securities that are judged to be of equivalent quality according to analysis by the fund management company. The securities may be issued in developed and developing countries. On an ancillary basis, the subfund may invest up to 10% of net assets (maximum) in equities, notably ones that offer a high dividend or as part of an arbitrage strategy during a market transaction. There are no constraints in terms of duration, sensibility, or split between public and private debt, provided the overall sensitivity of the portfolio is between -1 and 7 and the target sensitivity is 2-4. The subfund reserves the right to invest up to 10% of net assets in securities other than UCITS or alternative investment funds (AIFs) as defined by French or European law, mainly to invest cash holdings in money market UCITS and AIFs or short-term money market UCITS and AIFs, as well as equity or bond UCITS/AIFs that are compatible with the management policy. The subfund may use simple forward financial instruments (purchase or sale of call or put options on equities, interest rates, indices or currencies, volatility and purchase or sale of contracts on forward financial instruments (forward exchange, futures or swap on equities, interest rates, indices, volatility or currencies) and securities with embedded derivatives traded on the equity, interest rate, index and currency markets. The subfund manager may aswell intervene on the credit default swaps (CDS). Exposure to derivatives and embedded derivatives is limited to 100% of net assets, with the exception of volatility exposure through futures and options, which is limited to 10% of net assets. The UCITS may therefore be exposed to 200% of its assets. Net exposure to forex is kept below 20%, with net exposure to any one currency capped at 10%.

Benchmark Information: The UCI is actively managed. The management strategy is unconstrained by the securities making up the benchmark index.

Allocation of distributable income:

- Allocation of net income : Accumulation
- Allocation of net realised capital gains : Accumulation

Right of redemption: Orders are executed as indicated in the table below

D business day	Day on which NAV is set (d)	D+1 business day	D+2 business days
Daily reception and Daily centralisation before 11:00 (Paris time) of redemption orders	Order executed by the latest on d	Publication of the net asset value	Settlement of redemptions

Targeted retail investors: All subscribers, intended mainly:

- for marketing networks having received prior approval from the management company
- or for distributors and/or intermediaries having received prior approval from the management company and providing:
 - independent advice within the meaning of MiFID 2
 - individual management under mandate.

The UCI may be used as a unit of account in life insurance contracts.

Name of custodian: CACEIS BANK

Place and procedures for obtaining information on the UCITS (prospectus/annual report/half-yearly report): The prospectus of the UCITS and the latest annual and interim reports will be sent free of charge in French within one week simply upon a written request made by the holder to AMIRAL GESTION.

WHAT ARE THE RISKS AND WHAT'S IN IT FOR ME?

Risk indicator:

Recommended holding period: 3 years

The risk indicator assumes that you will continue to hold the product 3 years. The actual risk could be very different if you opt to exit prior to the end of the recommended holding period, and you may recover less of your initial investment.

The synthetic risk-reward indicator measures this product's level of risk compared to other products. It indicates the likelihood that this product will suffer losses in the event of market shifts or our inability to pay you. We have classified this product on the 2 out of 7, which is the a low risk class. In other words, potential losses arising from this product's future results are at level low and if the market situation was to worsen, it is very unlikely our ability to pay you could be affected.

This product provides no protection from market uncertainties. It is therefore possible that you could lose all or part of your investment.

If we are unable to pay you the amounts we owe you, you could lose your entire investment.

For more information on these risks, please refer to the prospectus. Other important risk factors not included in the indicator: Credit risk; Liquidity risk

Performance scenarios:

The figures shown include all costs of the product itself, but not necessarily all fees due to your advisor or distributor. These figures do not take into account your personal tax situation, which may also affect the amounts you will receive.

What you get from this product depends on future market performance. Future market developments are uncertain and cannot be accurately predicted.

The unfavourable, intermediate and favourable scenarios presented represent examples using best and worst case performance, as well as the average performance of the product and of a benchmark index over the past 10 years. The scenarios presented represent examples based on past performance and certain assumptions. Markets could evolve very differently in the future.

Recommended holding period: 3 years Investment example: 10,000 €			
Scénarios	If you exit after 1 year	If you exit after 3 years	
Minimum	There is no minimum guaranteed return. You may lose all or part of your investment.		
Pressure	What you could get after deducting costs	8,488€	8,721 €
	Average annual return	-15.12%	-4.46%
Unfavourable	What you could get after deducting costs	8,825€	9,285 €
	Average annual return	-11.75%	-2.44%
Intermediary	What you could get after deducting costs	10,142€	10,444 €
	Average annual return	1.42%	1.46%
Favourable	What you could get after deducting costs	12,396€	11,654 €
	Average annual return	23.96%	5.23%

A market distress scenario shows what you may obtain in extreme market situations.

Unfavourable scenario: This type of scenario has occurred for an investment between 24/03/2017 - 24/03/2020

Intermediate scenario: This type of scenario has occurred for an investment between 11/08/2020 - 11/08/2023

Favourable scenario: This type of scenario has occurred for an investment between 05/09/2018 - 06/09/2021

WHAT HAPPENS IF AMIRAL GESTION IS UNABLE TO MAKE THE PAYMENTS?

The product is constituted as an entity that is separate from the portfolio management company. In the event of bankruptcy of the portfolio management company, the product's assets held in custody by the depositary will not be affected. In the event of bankruptcy of the depositary, the financial risk incurred by the product is mitigated, owing to the legal separation of the depositary's assets from the product's assets.

WHAT WILL THIS INVESTMENT COST ME?

The person who sells you this product or who provides advice on it may charge you additional fees. If so, said person shall inform you of such fees and of the impact they have on your investment.

Costs over time:

The tables show the amounts taken from your investment in order to cover the various types of costs. These amounts depend on the amount that you invest, the time during which you hold the product, and the product's returns. The amounts indicated here are illustrations based on an example of invested amount and various possible investment periods.

We have assumed:

- that in the first year you would get back the amount you invested (annual return of 0.0%)
- that for the remaining holding periods, the product evolves as indicated in the intermediate scenario
- that 10,000 EUR are invested

	If you exit after 1 year	If you exit after 3 years
Total costs	611 €	851 €
Impact of annual costs (*)	6.17%	2.90% every year

(*) This shows how much costs reduce your return each year of the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average annual return will be an estimated ##_shr_average_yield_per_year(1-dec)##% before deduction of costs and 1.5% after this deduction. It may happen that we share costs

with the person who sells you the product, in order to cover the services that it provides to you.

Breakdown of costs:

One-off costs at entry or exit		If you exit after 1 year
Entry costs	5.00% maximum of the amount invested.	until 500 €
Exit costs	We do not charge an exit cost for this product, but the person selling you the product may do so.	0 €
Recurring costs incurred each year		
Management fees and other administrative and operating costs	0.91% of the value of your investment per year. This estimate is based on actual costs charged last year.	86 €
Transaction costs	0.16% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies depending on how much we buy and sell.	15 €
Incidental costs incurred under specific conditions		
Performance-related fees	0.08%. 15% (incl. tax) of the positive performance of the share N in excess of its benchmark index. The actual amount varies depending on the performance of your investment. The estimate of the variable management fees includes the average over the past 5 years.	9 €

HOW LONG DO I HAVE TO HOLD IT AND CAN I WITHDRAW MONEY EARLY?

Recommended holding period: 3 years

Investors may request the total or partial redemption of their units at any time during the life of the Fund, without any fee being charged.

This subfund has not implemented a mechanism for limiting redemptions (referred to as "Gates"), so in exceptional circumstances, the absence of this mechanism could result in the inability of the Investment Fund to fulfill redemption requests, thereby increasing the risk of a complete suspension of subscriptions and redemptions in this Investment Fund.

The Sub-Fund implements several complementary DNSH schemes to ensure that its investments do not cause significant environmental and social harm.

HOW CAN I MAKE A CLAIM?
